

CALL FOR PROPOSALS 2016 - REOPENED

Nordic Master

The Nordic Council of Ministers is pleased to announce the launch of the 2016 Call for proposals for Nordic Master programmes. The maximum grant per programme is DKK 1.5 million. The deadline for applications is Friday, 4 November 2016.

The Nordic Master is initiated by the Nordic Council of Ministers to promote higher education in the Nordic Region by attracting talented students worldwide to the Region.

Three master programmes will be supported in 2016. One of these three programmes is thematically predefined within Green Growth. This theme is to be interpreted in a broad sense: the programme can operate within any relevant subject area.

Nordic universities are now invited to submit their proposals. Applications should be submitted through the electronic application and reporting system Espresso (<https://espresso.siu.no/espresso>).

The deadline for submitting applications is **Friday, 4 November 2016**.

The Centre for International Mobility CIMO in Finland is responsible for the administration of the Nordic Master on behalf of the Nordic Council of Ministers.

More information on the call and the Nordic Master is available at www.nordicmaster.org and in the [Nordic Master programme guide 2016](#). You are welcome to contact Kenneth Lundin directly also with the below contact details.
